TWO AMAZING OFFERS

OFFER 1: 40% OFF TaqMan Arrays

TaqMan® Gene Expression or miRNA Arrays

Interrogate genes or miRNAs in your pathway on one convenient and cost effective Applied Biosystems™ TaqMan® Array 96-well plate. Simply choose among our pre-configured plates, custom plates and flexible content panels and save 40%.
Use Promo Code RTQMCA.

Pre-configured fixed content TaqMan Array Plates

Minimum order is just one plate
thermofisher.com/signatureplates
thermofisher.com/advancedmirna

Custom TaqMan Array Plates

Minimum order is only 6 plates
thermofisher.com/arrayplates

TaqMan Flexible Content Panels

Minimum order is just one plate
thermofisher.com/flexiblepanels

OFFER 2: 75% OFF TaqMan® Advanced miRNA Assays

TaqMan® Advanced miRNA Assays and Kits

Purchase 2 Applied Biosystems™ TaqMan® Advanced miRNA Assays (cat. no. A25576) and one Applied Biosystems™ TaqMan® Advanced miRNA cDNA Synthesis Kit (cat. no. A28007) and obtain a 75% discount off list price.
Use Promo Code RMIR75.

- **Universal reverse transcription (RT)**—one RT step for all TaqMan Advanced miRNA Assays
- **Sensitive**—detect as few as 60 copies of input microRNA (miRNA)
- **Specific**—detect only mature miRNA and distinguish between highly homologous miRNAs
- **Small sample input**—detect and quantify mature miRNA from as little as 1 pg of total RNA or 2 µL plasma or serum
- **Versatile**—compatible with biofluids including human serum, plasma and tissue
